Thanks for your purchase.

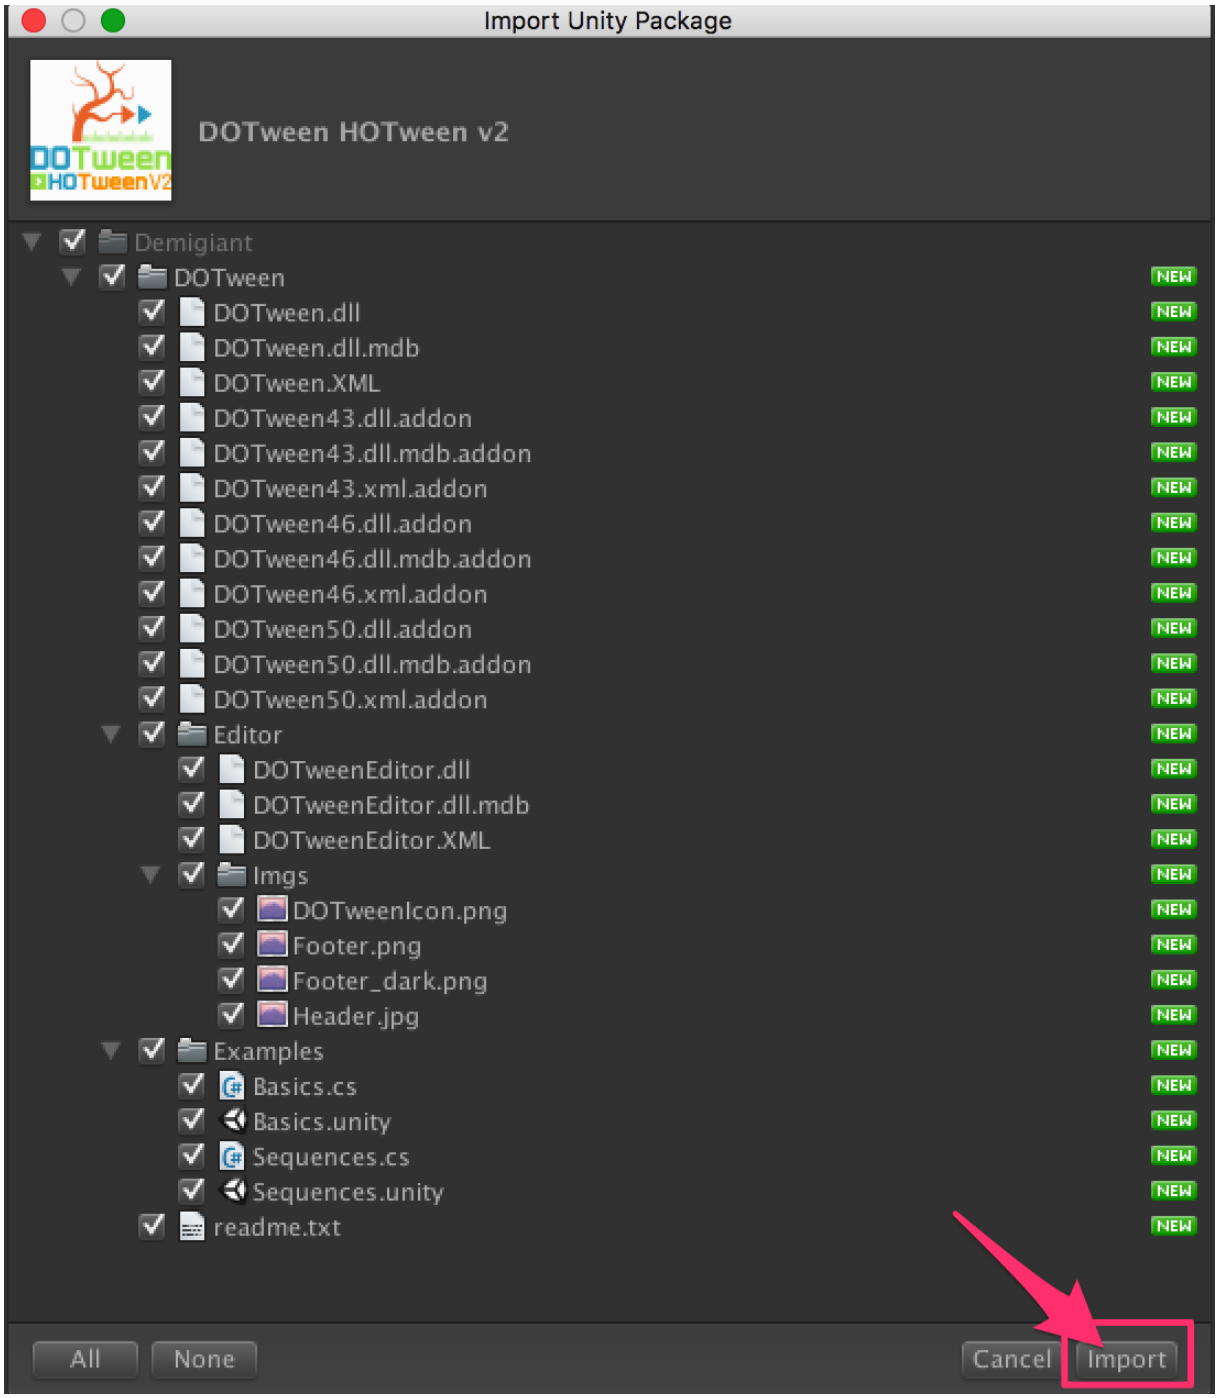
First of all, you have to get DOTWEEN from the Asset Store :

http://u3d.as/aZ1

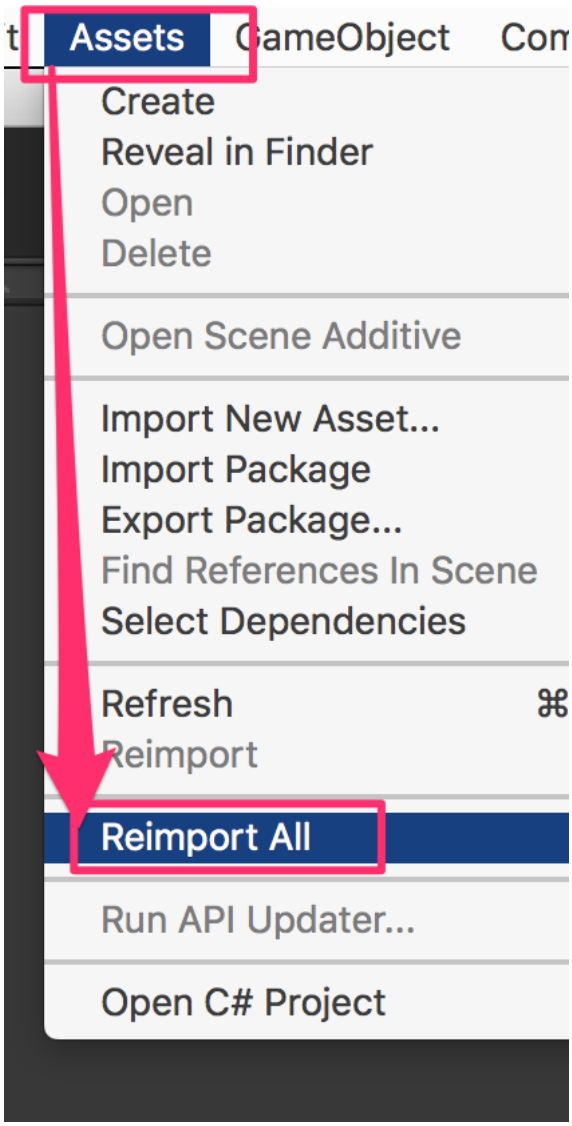
(it's free)

1/ Import Dotween from the asset store : http://u3d.as/aZ1

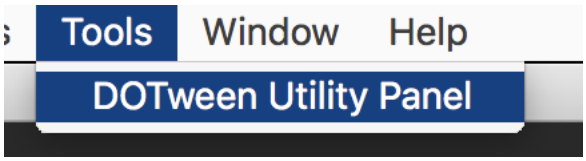
2/ Import the package into Unity



3/If you don’t see the « Tools » in the top of the Unity Screen, please do this :

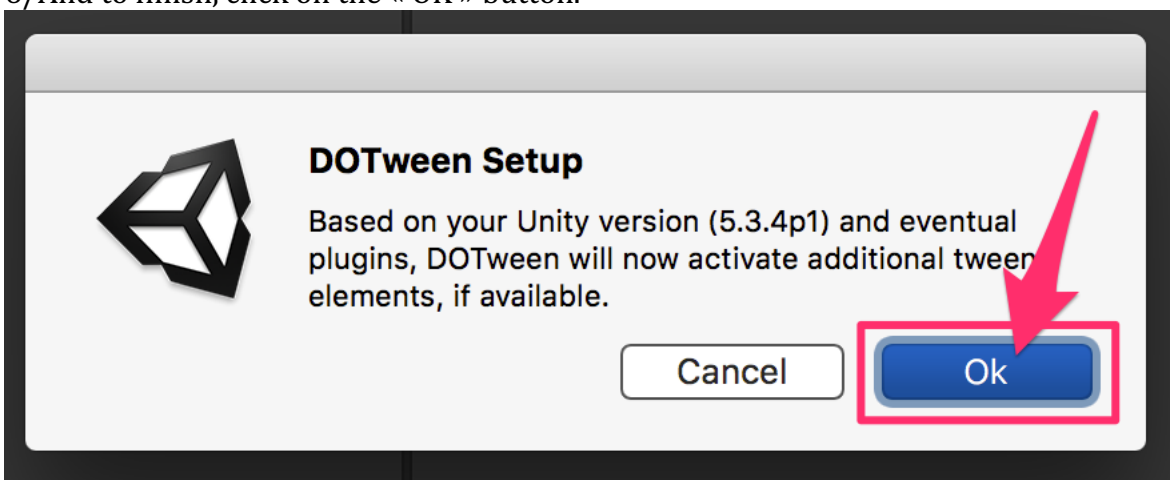


4/Now you have the « Tools ». Open it and click on « DOTween Utility Panel ».



5/Click on « Setup DOTween ».

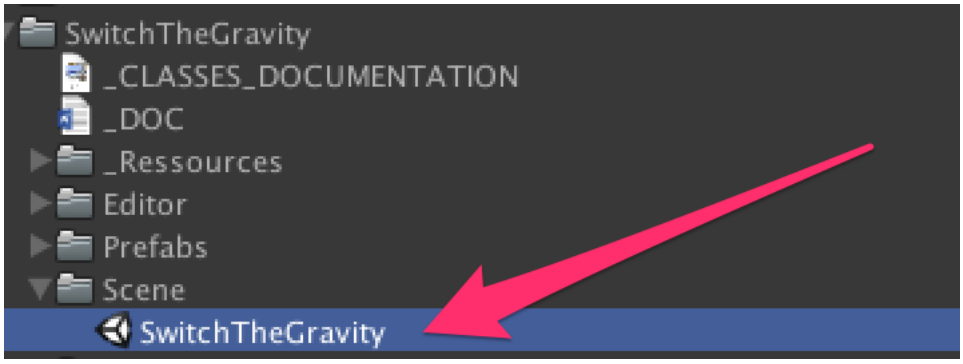
6/And to finish, click on the « OK » button.



SOURCE CODE DOCUMENTATION AVAILABLE HERE :

https://dl.dropboxusercontent.com/u/8289407/SwitchTheGravity/Documentation/html/annotated.html

To begin, open the scene « SwitchTheGravity ».



Music & FX:

If you want to change them, just drop your new audio file in the editor.

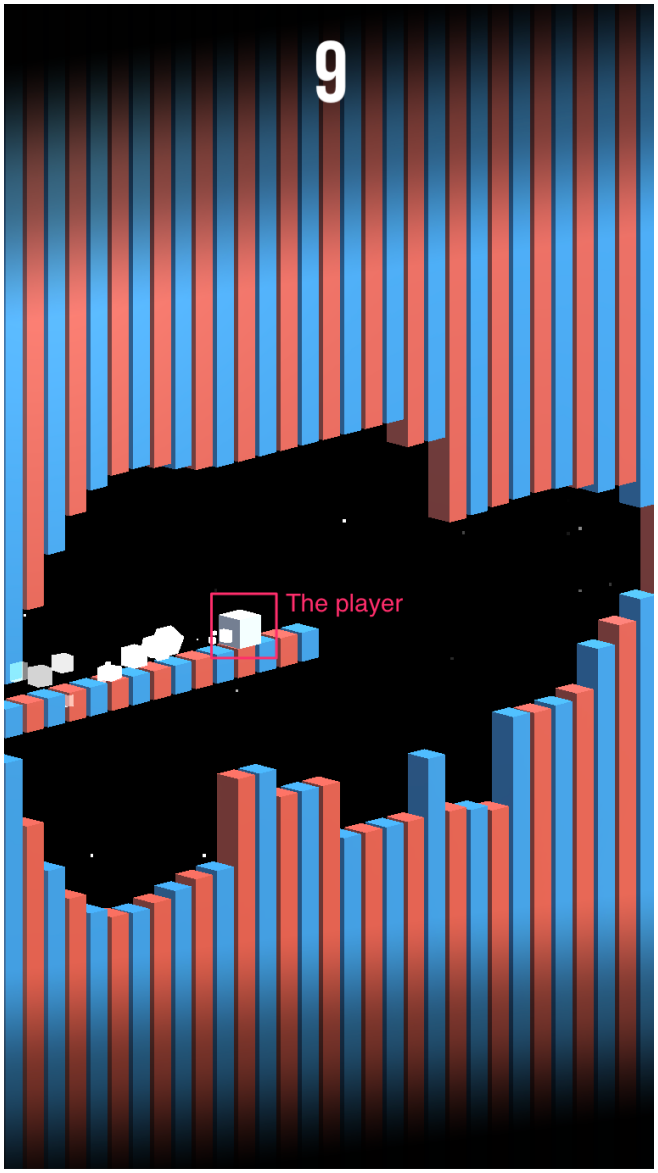
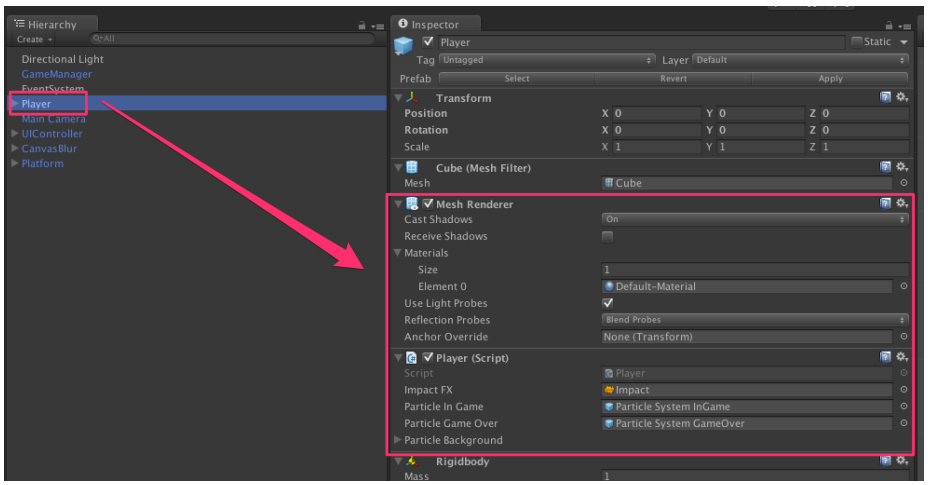
The player :

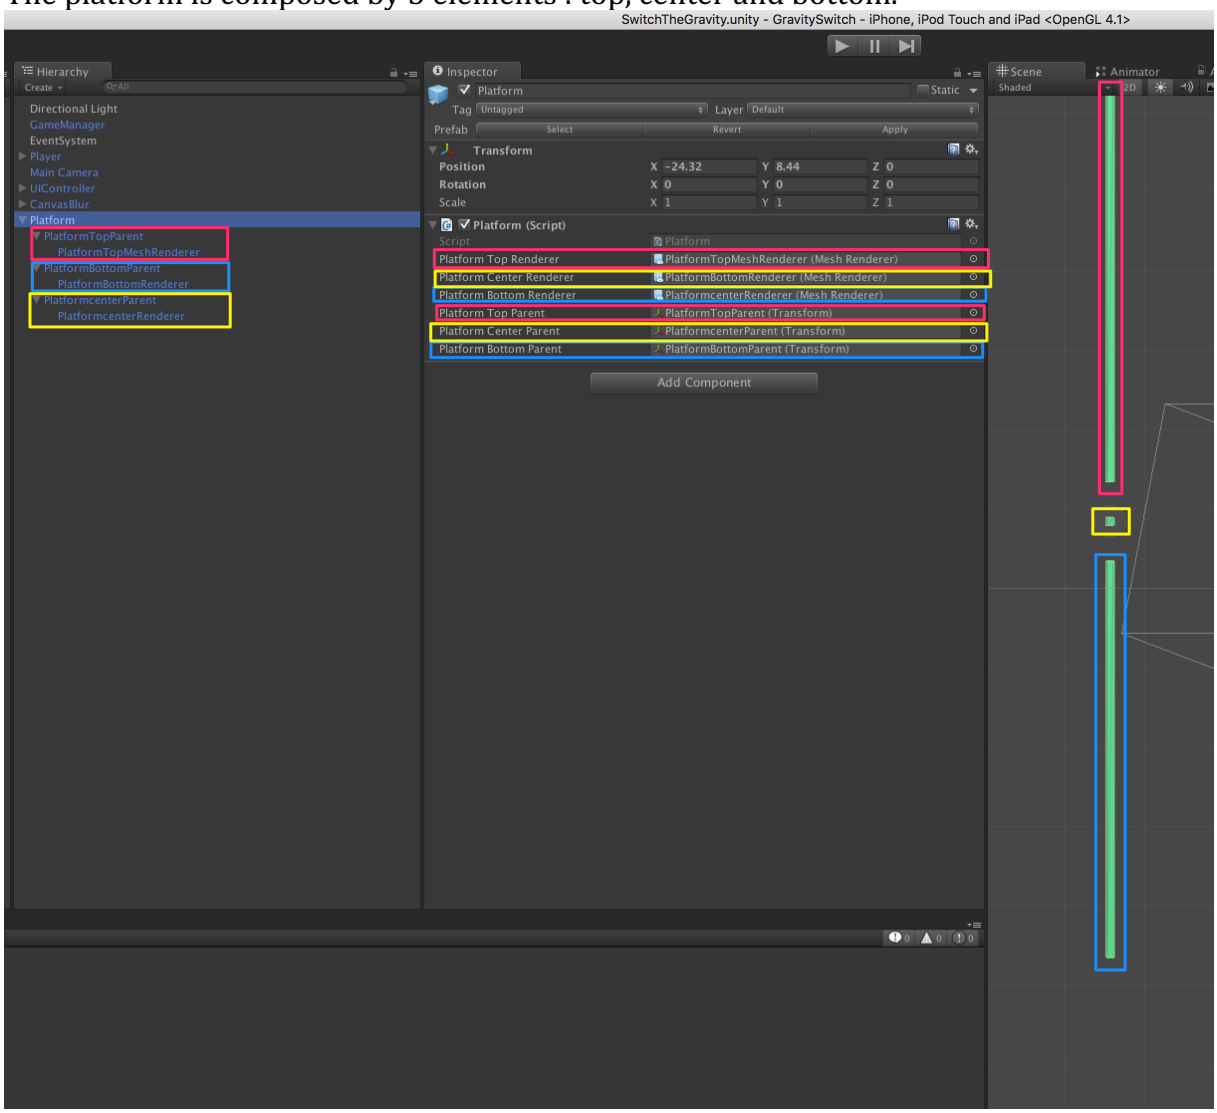


To modify the renderer, or the particles, have a look to the editor :



Platform :

The platform is composed by 3 elements : top, center and bottom.



CONSTANTS:

```
/// <summary>
/// Maximum Y position of the top platforms.
/// </summary>
public const int upMaxY = 32;
/// <summary>
/// Minimum Y position of the top platforms.
/// </summary>
public const int upMinY = 28;
/// <summary>
/// Maximum Y position of the bottom platforms.
/// </summary>
public const int downMaxY = -upMinY;
/// <summary>
/// Minimum Y position of the bottom platforms.
/// </summary>
public const int downMinY = -upMaxY;
/// <summary>
/// Middle position of the platforms (= position where the top and bottom platforms touch eachother).
/// </summary>
public const int middlePosY = 25;
/// <summary>
/// Number of platforms we want to spawn in the game (then we recycle them).
/// </summary>
public const int numberOfPlatform = (int)(1 + 2 * Constants.screenWidth);
/// <summary>
/// The screen width we want in all devices (to have the same gameplay everywhere).
/// </summary>
public const float screenWidth = 22;
/// <summary>
/// The name of the screenshots.
/// </summary>
public const string ScreenShotName = "Screenshot";
/// <summary>
/// The distance in front of the player to start the Platform animation open.
/// </summary>
